

Virtually Paisley ... is an orienteering challenge using the Clydeside Orienteers' Urban Map of Paisley town centre and Google Maps Street View. The object of the game is to work around the course and use your combined orienteering skills and ability to delve into the Google Maps Street View technology in order to answer the following questions at each of the control sites.

To help you locate the start, it is slightly north of Paisley Abbey. Please note that there are questions at both the start and the finish, and that the planner used the latest 2020 version of Street View. Have fun !

Control	Question
Start	In which year was The Abbey pub established?
1	How many millstones are at the entrance to the hotel?
